## Matthias Trück

### Germany

Matthias Trück studied with Prof. Michael Flaksman at the Mannheim University of Music and Performing Arts and with Prof. Hans-Christian Schweiker at the Cologne University of Music, where he received his diploma.

Since then he has pursued his own musical career as a founding member and arranger of various ensembles off the beaten classical music paths. Since 1997 he has been a member of the cello quartet quattrocelli, which has toured and is still touring worldwide.

In 2009 he founded the Cello Akademie Rutesheim, an annual cello festival with international master classes and concerts.

As director of this festival, the musical entrepreneur has shown how classical music can be successfully presented in today's world. With the festival he offers highly qualified young cello players from all over the world the opportunity to gain valuable experience and encounters at a high level.
